

HAS FIVE HELPERS

ATTORNEY GENERAL WEST IS PUSHING OFFICE WORK

PEOPLE BITTER AGAINST COAL BARONS

Demand for Cash by Coal Operators Intensifies Feeling

Attorney General West has five assistants, as follows: W. J. Crump, of Muskogee; Fielding Lewis, of McAlester; Judge Spillman, of Kingfisher; Geo. Henshaw, of Madill; and Mont. Highley, of Oklahoma City.

Crump will look after liquor matters and Lewis will attend to the coal sales on the East side. The others will work in a general advisory capacity.

The demand of the coal operators in the Indian Territory part of the state, effective today, that they shall be paid cash for their coal by retail dealers before the coal is unloaded from the cars will tend to make merchants more bitter than ever against the exactions of the coal trust said Mr. West today. He feels that the coal operators, by their arbitrary conduct, are helping him with his suits against them. Mr. West purports that the operators shall sell coal at reasonable rates or he will force their properties into the hands of receivers. Hereafter, the coal operators in Indian Territory could be reached only through the interstate commerce commission. But under statehood the operators are amenable to the state's laws.

GOV. HASKELL'S THANKS-GIVING PROCLAMATION

Whereas, the President of the United States has designated Thursday, November 28th, 1907, to be Thanksgiving Day throughout the nation; and whereas it has been the custom universally sanctioned for the chief executive of the states to appoint the same day as that named by the President to be Thanksgiving Day and a holiday; I, C. N. Haskell, governor of the state of Oklahoma, in conformity with the custom afore said, do hereby appoint Thursday, November 28, 1907, as Thanksgiving Day, and to be a holiday in the commonwealth of Oklahoma, and earnestly appeal to the people of this new and hopeful state to join with the people of other states and of the nation in giving sincere expression of their gratitude to Almighty God for the blessings which have been bestowed upon them.

The union of Indian Territory and Oklahoma Territory into a state, equal in constitutional right and power with each of the other states, is an event of everlasting importance to the inhabitants of the state and of the nation. Our people are inspired by a feeling of deep gratitude for the blessings of self-government secured to them by a constitution of their own making with the approval of self-government under the guidance of Divine Providence.

and the honest laborer in all of the vocations of life will be given his just reward.

The patience exhibited by our people during the long struggle for statehood, and the great development of the all but unlimited resources of our state under most adverse conditions, are proof that our people will prosper in the full extent of the opportunity which the new order of things will afford them and Oklahoma will enter upon her career of statehood under auspicious circumstances.

The financial stringency prevailing not only in the state of Oklahoma, but throughout the Union, is not attributable to any degree, whatever to any lack of God's benevolence and abundant blessings, but purely the result of the selfishness of man. We have, then, to strive for the correction of the practices of men to the end that we may better enjoy the bounteous provisions for the happiness of humanity which the kindness of the great Creator affords us.

Let it be the prayer of every citizen that his course shall always be upward and that his constitution and laws shall always guarantee good government.

In testimony, whereof, I herewith cause the great seal of the state of Oklahoma to be affixed hereto at the city of Guthrie, on this, the 18th day of November, A. D. 1907, and in the year of our independence, the one hundred and thirty-first.

C. N. HASKELL,
Governor of the State of Oklahoma.

Quinsy Sore Throat.
The following mixture will generally quickly bring relief in case of a quinsy sore throat: Thirty grains of chloride of potash, three drams of tincture chloride of iron, four drams of glycerine and enough distilled water to make four ounces. The dose for an adult is one teaspoonful every hour until relieved. To avoid the constipating effect of the iron a good dose of some saline laxative should be taken.—New York World.

Gov. Haskell likes President Roosevelt's plan as conveyed in the President's recent proclamation for a meeting in Washington next May of many of the senators, congressmen, governors and three representatives from each state to discuss economics in general. Governor Haskell said:

"The President's plan to discuss in this manner economics in general, the cultivation and preservation of forests, development of substitute material, utility and preservation of natural resources and in general handling down to posterity a country not impoverished by the depletion of natural resources, is in my opinion an excellent idea. Congress Will Be Asked to Repeal Provision Relative to Shipping

The Rev. E. C. Dinwiddie of Washington, superintendent of the Anti-Saloon League, who led the prohibition campaign in Oklahoma believes that prohibition may become a national issue, according to a statement made today.

"We have long been contending that congress should repeal a provision of the interstate commerce law which permits the shipment of liquor at random from the 'wet states into 'dry' territory," he said.

"This is one of the serious drawbacks to the success of prohibition and we contend that congress should pass a law forbidding railway companies and other common carriers, doing an interstate business, from shipping liquor into 'dry' states. At the next session of congress we will ask that this be done, and if it is not we will try to make it a national issue and force one of the parties to place a plank in its platform declaring in favor of the passage of such a law."

Mr. Dinwiddie will come to Guthrie when the legislature is in session and watch the interests of the prohibitionists here. A lobby will be maintained to see that the proper laws regarding the sale of liquor and the establishing of dispensaries are passed.

THE HOT WATER CURE.

Effectively Applied by an Australian Settler's Wife.

Wives of "squatters," or farmers, in Australia are often left entirely alone at the farmhouse and are more or less subjected to danger in consequence. A traveler writes: "I know of a squatter's wife who was left to her own devices in this way, while all the men of the station were mustering cattle—a business which on large open plains takes weeks to complete. One morning a party of natives arrived and, finding her alone, demanded food, threatening death if she failed to bring it. 'Oh, yes,' answered the lady coolly, 'I'll feed you. I'll feed you well, very well, now, master away. You come along a kitchen. You sit down all the same white man. I get you lard, you look-out! (spend) food. In no time a score of blacks were squatting round the kitchen, while the lady produced all the food available. Then she filled all the pots, kettles and bottles she could find and put them on to boil—for ten as doubtless her guests thought—while they gobbled and jabbered, growing more and more uproarious. Presently the water boiled, and then my lady—her natural compassion—slain by her desperate need, seized a quart pot in either hand and dashed the boiling water along each row of naked figures. This she did again and again, shrieking, 'I give you lard, you look-out!' while the blacks yelled in pain and terror, tumbling over each other to get out of the house, screaming that she was no white woman at all, but a diabolical devil. Neither could they ever be induced to return to that station, inhabited, as they were convinced, by a dangerous devil."—Chicago News.

Manager Thompson Busy Packing Brewery Fixtures

Special to Daily Leader.
Oklahoma City, Nov. 22.—H. Y. Thompson, manager of the New State brewery, opened by the Anheuser-Busch Brewing company of St. Louis, says that the brewery here will be used as an its factory and cold storage plant. With reference to the prohibitory clause he said:

"We had all preparations made and now have men in all of the cities in the state taking down our fixtures preparatory to their removal. We already have shipped some material out of the state and as rapidly as we can procure cars we will ship the rest. We figure that in this movement we will handle 300 cars and that the value of the material and fixtures to be shipped will approximate \$225,000. We have in storage 3,000 barrels of beer. I am not certain yet whether that can be sold and shipped to persons outside of the state. If it can not, then it will be emptied into the sewers of Oklahoma City. This would mean a loss of \$24,000. Without counting anything for the depreciation of real estate or attaching any value to the business the remaining loss in a direct way will reach \$250,000."

Six o'Clock Folk.
How many of our readers know what a "six o'clock man" is? Miss Spurgeon, one of the lecturers in English at Bedford college, Baker street, has a country cottage and an old "Ralph's mill" in the middle of Westleton hench, Suffolk. The other day a non-sporting lady told her that her husband's wife had often said, "We are six o'clock people," and she had taken it to mean "early risers." But soon after some one said that this lady's husband was "a six o'clock gentleman," and as she knew that he didn't get up early she asked what the epithet meant and was told, "Upright, like the hands of the clock are at six o'clock." Another use of the word in Suffolk is seen in "living upright"—that is, on independent means.—Westminster Gazette.

THE FARMER'S WIFE

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood.

Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating sores or ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, giddiness or dizziness in stomach, constipation or irregular bowels, sour or bitter rising after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid, or lazy liver with the usual accompanying indigestion, or dyspepsia and its attendant derangements.

The best remedy known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the schools of medical practice have been skillfully and harmoniously combined in Dr. Pierce's

VETERAN SENATOR IS 78.

Washington, Nov. 22.—Senator Shelby M. Culbom of Illinois, "the man who looks like Lincoln," received many congratulations today on the occasion of his 78th birthday. The senator appears to be in the best of health and spirits, notwithstanding the reports recently circulated that his health was failing rapidly. He visits the capitol daily and is seen in frequent conferences with those of his colleagues who are in town.

In speaking of the present financial situation and the coming session of congress, Senator Culbom said: "As to currency legislation, I do not think that congress will be ready to jump at the adoption of any plan that may be brought in. Currency legislation is a matter that should be very carefully considered, and I feel sure that congress will take that view of it."
